Release Summary - Streakify
06/03/24

Key User Stories and Acceptance Criteria:
1. User-Registration: As a user, I want to register an account so that my data is personalized and secure.
   a. Create a sign up page that adds the user to the database
2. User-Log In: As a user, I want to log in to my account so that I can access my personal data.
   a. Query the database to check if the user entered valid credentials
3. Add Habit: As a user, I want to add a new habit so that I can track a new goal.
   a. Create a button that adds a habit to the user in the database
4. Habit Streaks: As a user, I want to view my current streaks so that I can see my progress.
   a. Keep a streak tracker variable and update it as the user finishes a goal
5. Editing Habits: As a user, I want to edit a habit to update my goals.
   a. Add a button that will change a habit and save it to the database
6. Notifications: As a user, I want to receive notifications to remind me of my habits.
   a. Add a notification feature and allow the user to decide when to send notifications.
7. Deleting Habits: As a user, I want to delete a habit that I no longer wish to track.
   a. Add a delete habit button that removes the habit from the database
8. Motivational Quotes: As a user, I want to see motivational quotes when I open the app to stay inspired.
   a. Add a motivational quote bank that randomly picks motivational quotes

Known Problems:
1. No customization
2. 2 back buttons, where one logs you out.
3. Settings not fully implemented.

Product Backlog:
1. Fix the two back buttons
2. Add emoji customizations for the streaks
3. Allow users to share their streaks on social media.
4. Create habit suggestions
5. Add more profile customization features
